The studio is located in the RT 22 Stor-All Complex.

Coming west, you will pass Arrogas on your left. Continue straight on RT 22 and go about 1/2 a mile. You will pass a Chinese Church a little bit before entrance on your right. Enter RT 22 Stor-All and make the first sharp right up the hill. I'm at the top.

Coming East from Colonial Park area, go straight thru light at Sheetz (on your left) on Rt 22. Go thru the next light and start looking for a left turning lane into RT 22- Stor-All-All complex. Most GPS' will tell you to go up to Aroogas and make a U-turn because they are unaware of the left turning lane. After entering make the first quick right up the hill. I am at the top.
